Cross Connection Control Program Inspection Notice

Resident

Taylor, MI 48180

Dear Resident,

The purpose of The City of Taylor Residential Cross Connection Program is to help eliminate possible contamination of the public water distribution system. There are two required components of the program: 1) site inspection, and 2) testing of backflow prevention assemblies.

The City of Taylor Water Department will be working with Water Customer Service Crews to conduct these inspections. The Water department will be in your area, they will be in City of Taylor vehicles and will always have a ID Badge on them. Thank you in advance for your cooperation in this matter.

We are asking that you fill out the "Water Backflow Questionnaire" attached with this letter and return it by mail to The City of Taylor Water Department 25605 Northline Rd., Taylor MI 48180, You can access the questionnaire and submit it though www.cityoftaylor.com website, or drop it off in a drop box outside of the DPW Building 25605 Northline Rd., Taylor MI 48180.

City of Taylor inspections will only take about 15-30 minutes. We will need access to the inside and outside of your home. Please provide your phone number on the questionnaire and The Water Department will contact you to schedule an appointment

You will be notified of the inspection if modification(s) and or testing of backflow prevention assemblies are necessary. We look forward to working with you in protecting the drinking water supply. If you have any questions or concerns, please contact the City of Taylor at (734) 287- 6550 or check out our website at www.cityoftaylor.com.
